-React.js
-DOM Manipulation
-API integration with fetch
-React-bootstrap

Project Experience

Frontend – Creating a Responsive Portfolio

- Created and delivered a responsive portfolio showcasing skills, projects, and professional info. Leveraged Bootstrap, CSS, Google Fonts, and HTML5 for a contemporary design. Visual Studio Code streamlined development, ensuring efficiency. The portfolio features a responsive layout, enhancing accessibility across various devices.

Backend – Building a Robust E-commerce Backend

- Building an e-commerce backend using JavaScript, MongoDB, Postman, Node.js, Express.js, and RESTful APIs. The technologies chosen facilitated the creation of a scalable, efficient, and secure system, laying the groundwork for further enhancements and future expansion.

Full Stack – Build and Deploy a full stack e-commerce website

- Successfully launched an e-commerce platform with a user-friendly frontend, responsive design, and an appealing layout. The backend, powered by JavaScript, MongoDB, Node.js, Express.js, and RESTful APIs, ensured seamless communication, delivering a smooth online shopping experience. Full stack integration with React.js, DOM manipulation, and React-bootstrap showcased a holistic approach to web development.

Additional Skills

- Proficient in Microsoft Office
- Strong problem-solving and analytical skills
- Excellent communication and interpersonal skill
- Extreme detailed-oriented
- Knowledgeable both computer hardware and software problems
